

# TELEHEALTH: CARE AT YOUR HOME

**We all want an expert who understands what's wrong.**

**And can thoroughly explain what is happening, why it's happening, and what is the recommended therapy.**

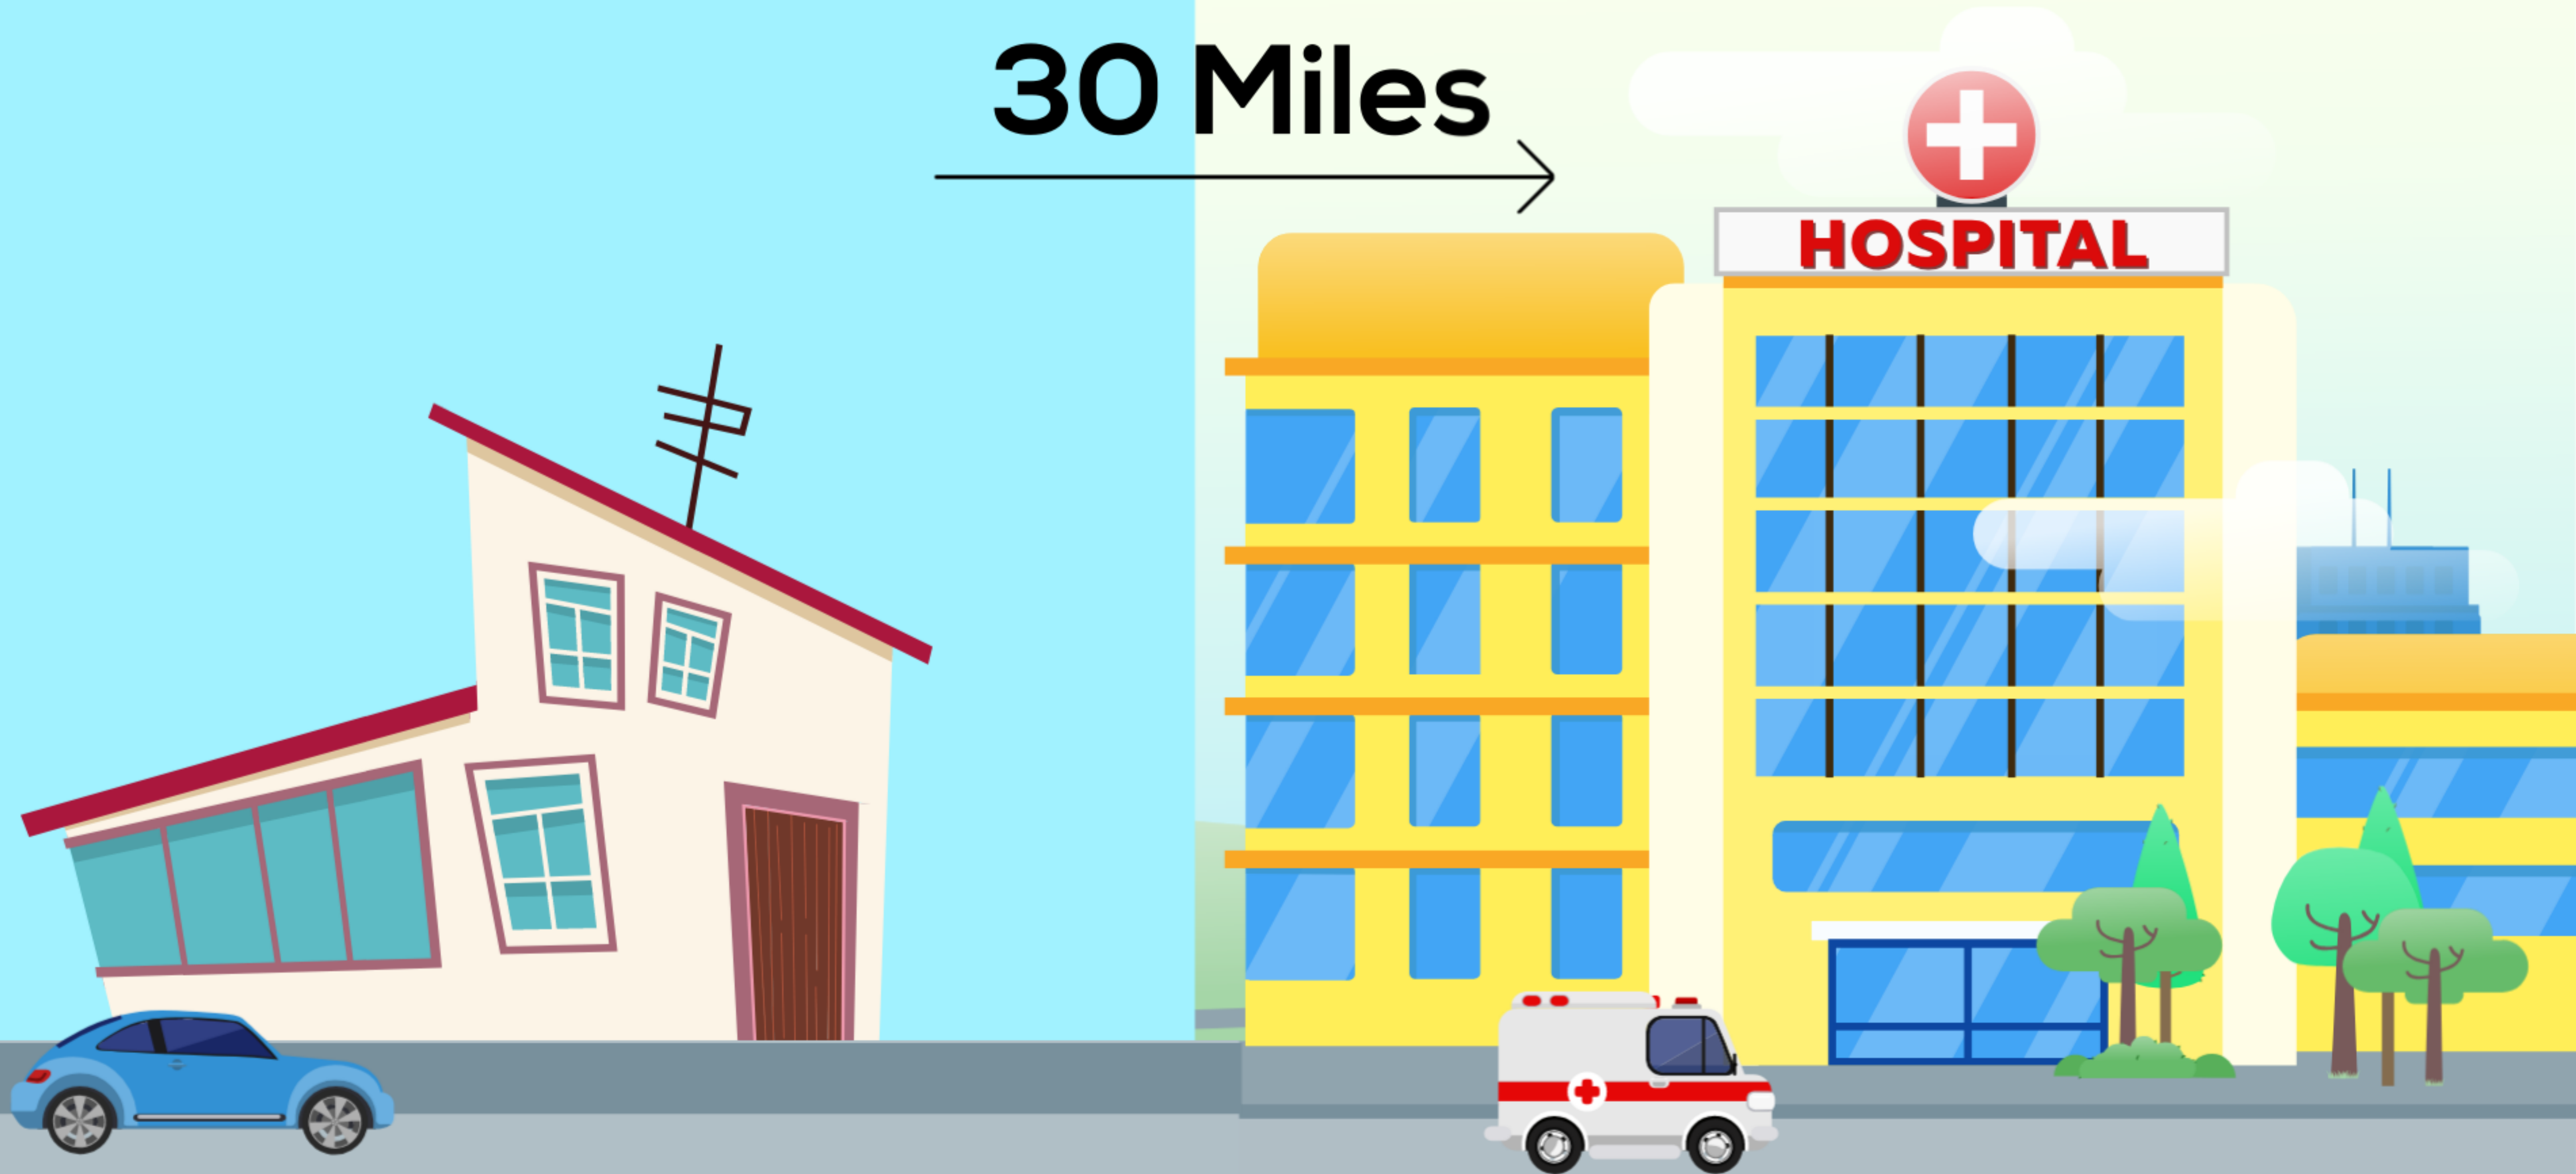

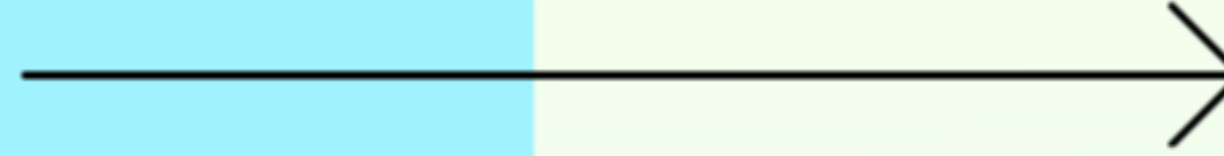

**But the reality is different**

Most often location becomes a problem to receive care near home.

Waiting in a long queue to see the doctor can add to the difficulty.

Moreover, frequent visits to hospitals can cost you time and money.

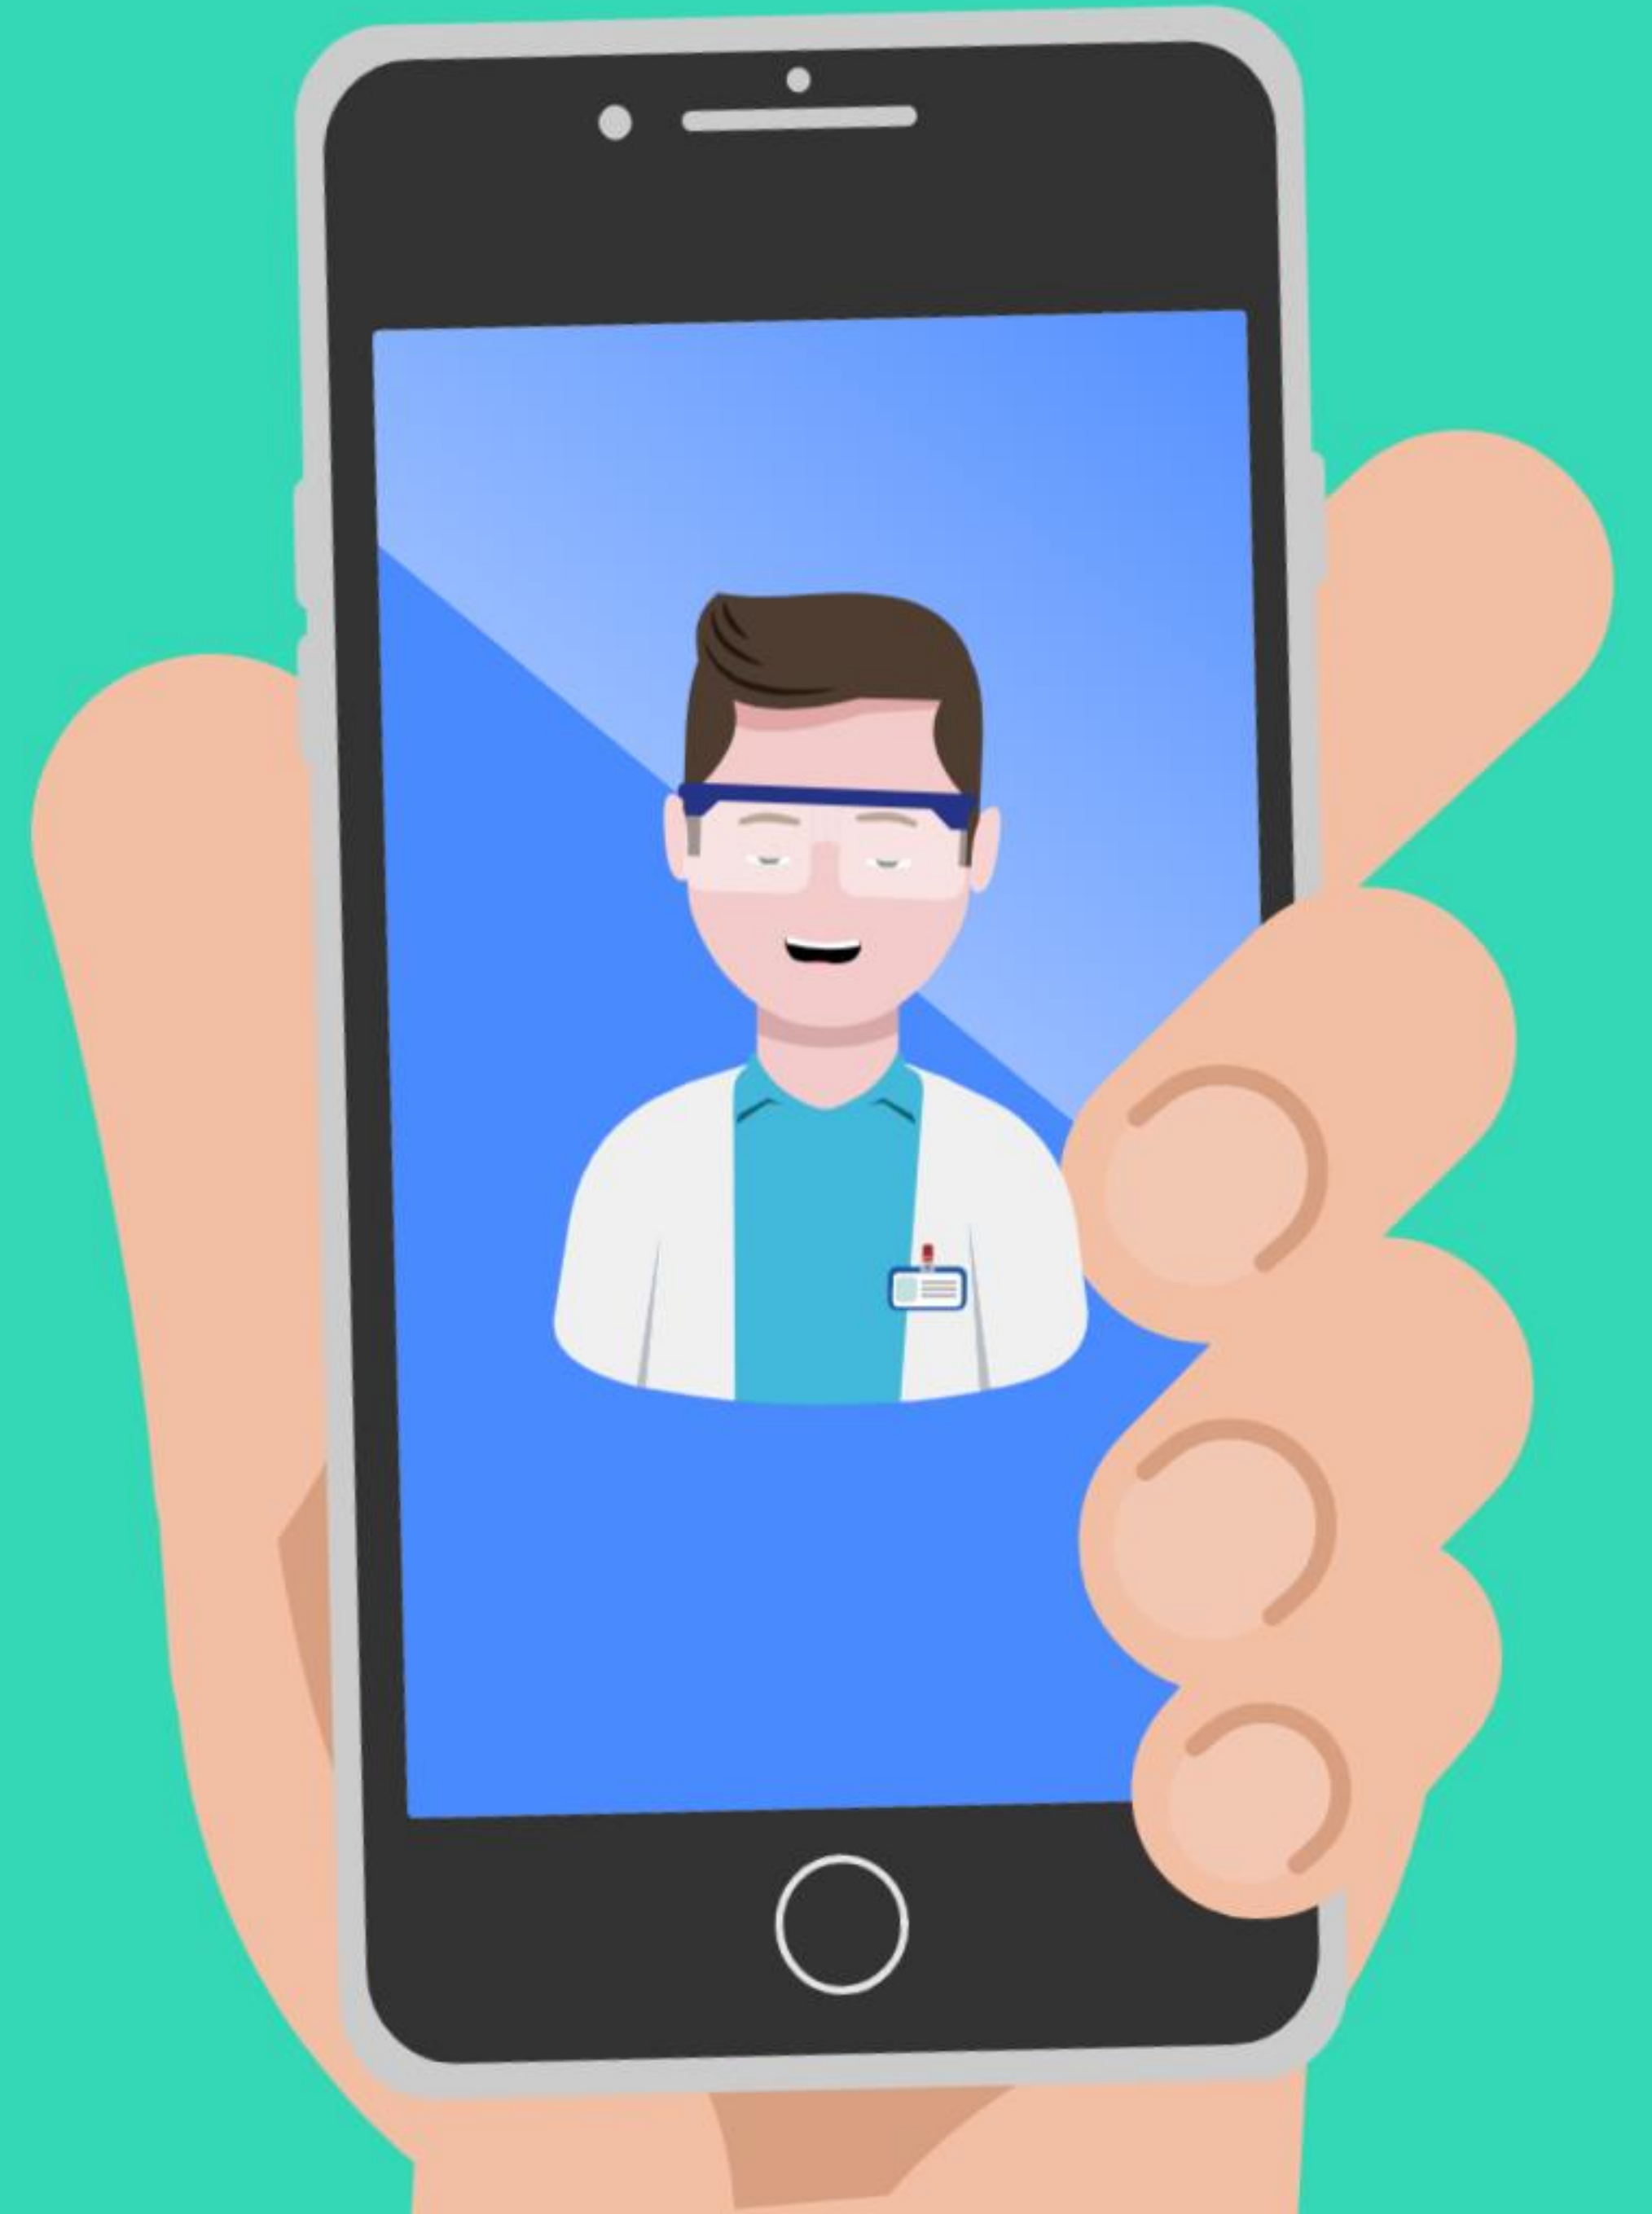

# What if you could see the doctor from the comfort of your home?

**///TELEHEALTH**

Telehealth today is using modern technology for patients to get personalized care in the comfort of their home.

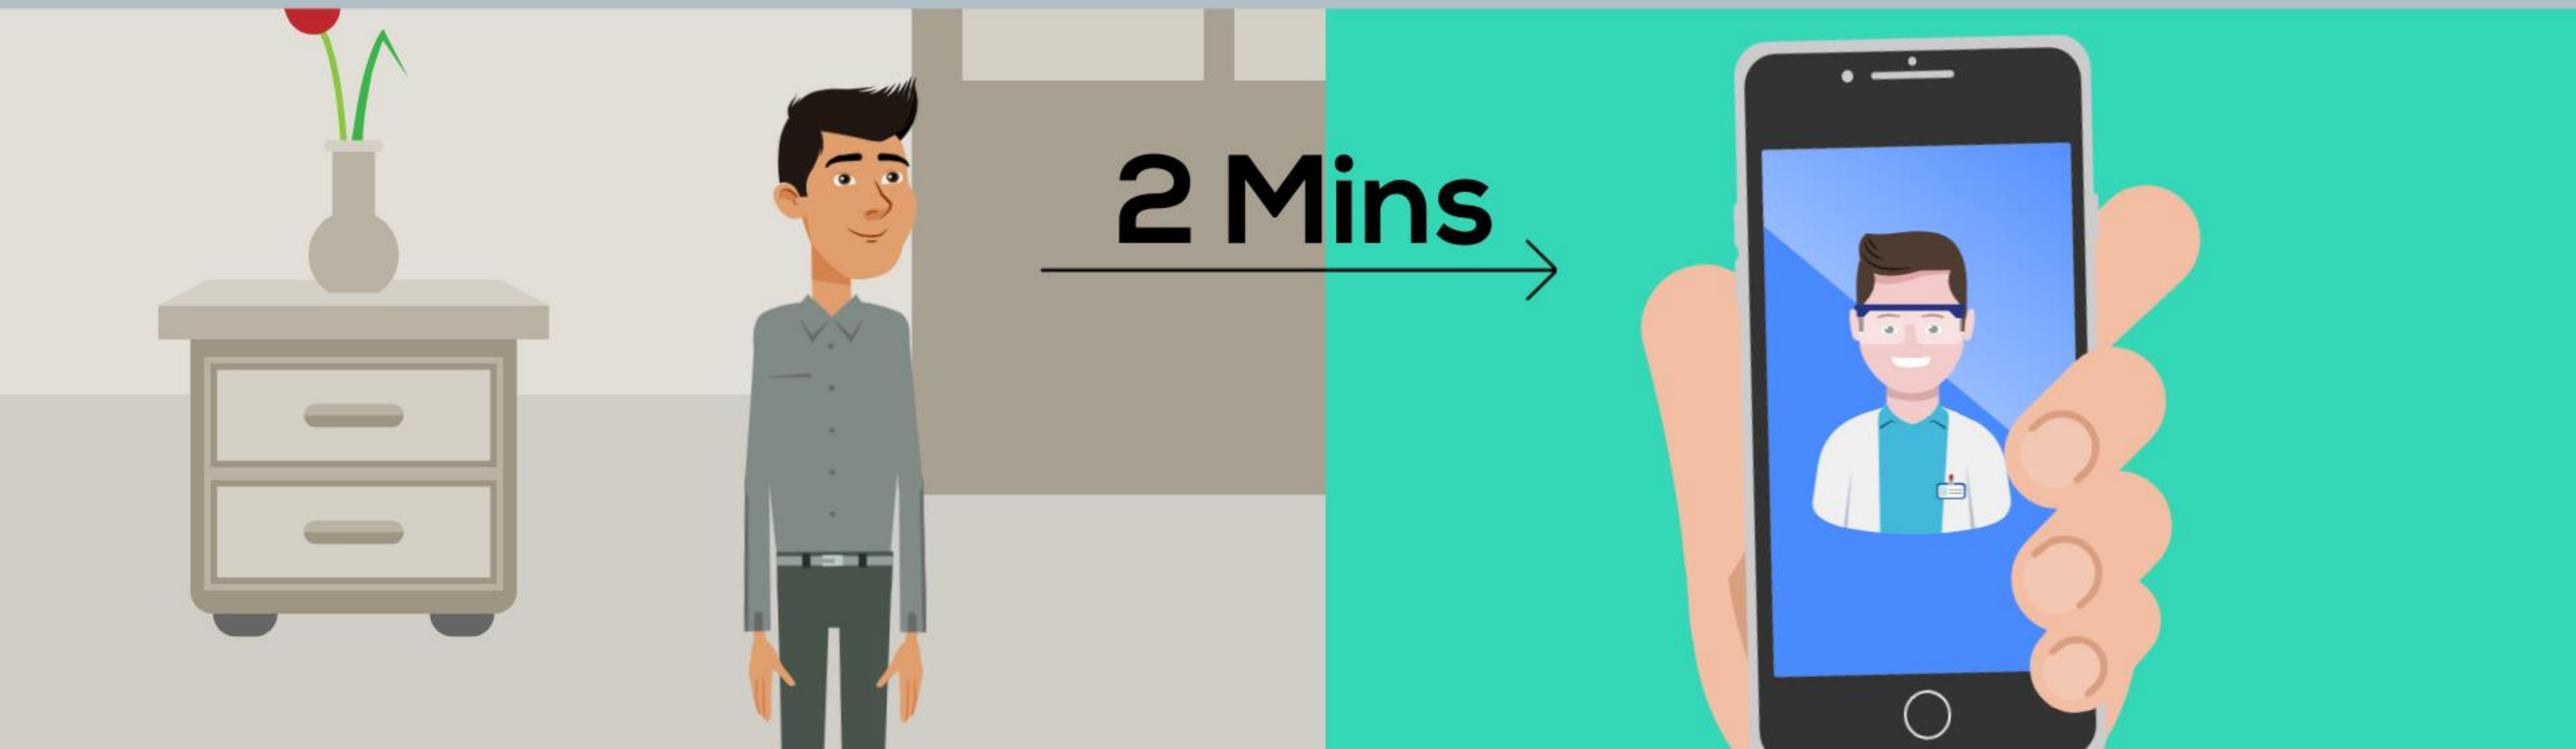

**It doesn't require face to face appointments, and works in combination with traditional consultation and clinic visits.**

This is great because it helps you see the specialist sooner, and closer to home.

**It has many advantages**

**Saves Time**

**Reduces Travelling**

**Saves  
Accommodation Cost**

**Reduces Family  
Stress**
